Oliver Healthcare Packaging Celebrates the Grand Opening of An Expanded Manufacturing Facility in Feasterville, PA

- New ~37,000 square foot high-bay state-of-the-art warehouse
- Connected two existing facilities for improved safety & cross-functional efficiencies
- Added ~7,000 square foot ISO 8 cleanroom space

Trevose, Pennsylvania, USA – Tuesday, September 29, 2020 – Last week, Oliver Healthcare Packaging Company celebrated the grand opening of an expanded manufacturing facility in Feasterville, Pennsylvania.

The updated facility includes a new ~37,000 square foot high-bay warehouse for material storage. The new warehouse has been optimized for pick-and-pull, delivery, and final shipment to ensure organizational and labor efficiency, which will lead to improved customer support & service. As a part of the facility expansion, Oliver added a new ~7,000 square foot ISO 8 cleanroom and connected their two existing facilities to improve operational efficiency and safety. The update to the Feasterville facility is just one of the many investments Oliver has made to ensure future growth and customer success.
