

Optimal Device Protection with Die-Cut Lids

Our custom-designed coated lids combine the right materials and adhesives to meet your sterilization and packaging specifications.

Die-Cut Lids

Oliver offers the most comprehensive set of coated die-cut lid materials and custom design options for medical device and pharmaceutical packaging.

Lids are fully customizable—including size, design and material selection—for optimal protection and performance.

Lid materials include Tyvek®, Ovantex®, papers, films and foils.

Our Oclean® products offer a solution for ultraclean packaging.

Lids can be printed with up to eight colors to maximize branding.

Oliver offers superior adhesive options including our exclusive Xhale® hot-melt and SealScience® water-based adhesives for lid and pouch applications.

Adhesive coatings can be applied to the entire lid or our award-winning Osurance® zone coating offers precise placement.
